

Fork Mini/Maxi, table design Diesel Creative Team

The Fork lampshade is a steel fork with a diffuser inspired by casual fashion and an informal, playful lifestyle. The light inside the diffuser illuminates its patchwork structure, the texture of the canvas and its jeans-style visible stitching creating an effect which is rather like switching on a light inside a tent. Nothing in Fork is left to chance. Its rings are not merely decorative but respond to practical needs with simplicity and immediacy. Versatile and extremely flexible, its adjustment range is 360°, to change the light direction as you please. Its ivory or grey diffuser – made of linen treated with a special process that gives it a vintage appearance – can be combined with an ivory or brown metal mount for a total of four different colour combinations all of which give it a total centrestage look.

Fork Mini/Maxi, table technical info

Description

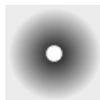

Table lamp with diffused and direct light. The matt satin finish polycarbonate diffuser is covered with pure linen fabric, with a purposely uneven weft and warp of the fabric achieved by hand. The fabric is first dyed and then undergoes anti-fray treatment; it is then cut into pieces and tailored by hand using a sewing machine with visible seams. The brass eyelets are galvanised in gun barrel colour. A special locking and sliding system positions the diffuser along the rod; a hand-welded painted steel fork houses the linear halogen light bulb, allowing the diffuser to turn freely through 360° along its axis. Rod and base made of powder-coated steel. Silk-screen printed matt Diesel logo at the base of the rod. Transparent electrical cable and dimmer.

Materials: Dyed linen, polycarbonate and coated steel

Colours: brown/grey, brown/ivory, ivory/grey, ivory/ivory

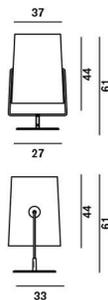

Brightness
diffused light

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
