

# Glas, suspension design Diesel Creative Team

In Glas the minimalism of the world of industry and the magic of blown glass meet.

Hand-made in a single piece and closed on the underside, the diffuser retains its factory and workshop lamp-inspired shape.

In the chrome version, an aluminium 'suit' wraps around the blown glass body, interacting with the light. When Glas is switched off the decorative effect of its mirror surface prevails, when it is switched on a warm light filters through its iridescent diffuser. And the satin white version allows light to filter through 360° diffusing a warm light.

Glas is available in an adjustable table model with a counterweight or a suspension model with a chain which echoes the industrial world once again. Available in two sizes, the suspension version of Glas is ideal for use in any setting, alone or in group compositions.

# Glas, suspension technical info

## Description

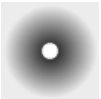

Suspension lamp with diffused light; the canopy and chain - with torus-shaped links - are in nickel-coated steel with glossy finish. The diffuser is made of glossy finish white hand-blown glass, and in the chrome version, the conical surface undergoes "vacuum metallising", a technique that renders the glass polished and reflective like metal when off. When the lamp is turned on, it looks like chromed metal, whereas it turns into a warm pale grey colour when the lamp is on. In the white version, the glass is sand-blasted by hand only in the upper conical part. The mount - which is in the shape of a hexagon nut - is made of injection moulded and "vacuum metallised" thermoplastic material with the Diesel logo in relief; transparent electrical cable.

**Materials:** Metallized or sandblasted blown glass, thermoplastic material and nickelplated steel

**Colours:** Chrome, White

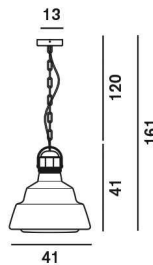

**Brightness**  
diffused light

## Model

### Glas grande

### Weight

net kg: 4,30  
gross kg: 8,10

### Packing

vol. m<sup>3</sup>: 0,114  
n.boxes: 2

### Bulbs

- Halogen 1x105W E27

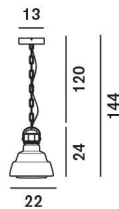

- compact fluorescent/LED retrofit 1x25W E27

### Certifications

### Glas piccola

### Weight

net kg: 2,10  
gross kg: 3,70

### Packing

vol. m<sup>3</sup>: 0,032  
n.boxes: 2

### Bulbs

- LED Retrofit/Fluo 1x21W E27

### Certifications

## Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
