

# Metafisica, table design Diesel Creative Team

A diffuser in blown glass in soft, full form seemingly suspended from a delicate metal cage. This is Metafisica. Mysterious and charismatic even when it is switched off, it assumes yet more body and life when it is switched on to the extent that the diffuser appears to float in the air and flout the laws of gravity. Its warm, absorbing light is made still more sensual by the ivory tones of its blown glass, and the precious metal rod cage with a brown finish, matt and dusty, exudes golden highlights which emphasise the vintage look. Metafisica is an imposing yet at the same time versatile lamp designed to steal the limelight wherever it is positioned.

## Description

Table lamp with diffused light. Large hand-blown cased glass diffuser, white on the inside and tinted on the outside, with glossy finish. The cage is made of hand-welded steel rods coated with matt brown powder paint and finished with hand-brushed bronze colour paint, to emphasise the vintage look. The base is fitted with polyethylene scratch-resistant feet. Diesel logo on the mount cable outlet. Transparent cable with dimmer, for gradual adjustment of brightness.

**Materials:** blown glass and painted metal

**Colours:** ivory

## Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
