

Mysterio, wall design Diesel Creative Team

Ironic and iconic, Mysterio is a luminous eye on the wall, a flying saucer hanging on a wire in space, a magic mirror from an ancient and mysterious house, right out of a thriller or a 1970s B-movie.

Vintage in its inspiration yet contemporary in its production, Mysterio consists of a polycarbonate diffuser whose internal surface is split into 12 sections that reflect the light beam and the interior of the lamp like a maze of mirrors.

Available in three versions, wall mounted, ceiling mounted or suspension and two colours, cosy, domestic copper or cool, refined silver, it is perfect for personalising the most diverse settings with charm and originality.

Mysterio, wall technical info

Description

Wall lamp with diffused light; in the white / copper version, the injection moulded polycarbonate lampshade is batch-dyed white and the interior undergoes a copper coloured "vacuum metallising" treatment, a technique that renders the material polished and reflective like metal. In the black / silver version, batch-dyed black and the interior undergoes a silver coloured "vacuum metallising" treatment and it is finished by hand through the sponge application of paint to age the surface. A hand-blown glass bubble with glossy finish screens the halogen light bulb. Galvanised metal wall plate and powder-coated metal cover in black or white depending on the colour of the lampshade.

Materials: Metallized batch-dyed polycarbonate and blown glass

Colours: White-copper, Black-silver

Brightness

diffused light

Model

Mysterio

Weight

net kg: 0,80
gross kg: 2,10

Bulbs

- Halogen 1x33W G9

Packing

vol. m³: 0,025
n.boxes: 1

Certifications

⊕ ▽ CE IP 20

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
