

Mysterio, suspension design Diesel Creative Team

Ironic and iconic, Mysterio is a luminous eye on the wall, a flying saucer hanging on a wire in space, a magic mirror from an ancient and mysterious house, right out of a thriller or a 1970s B-movie.

Vintage in its inspiration yet contemporary in its production, Mysterio consists of a polycarbonate diffuser whose internal surface is split into 12 sections that reflect the light beam and the interior of the lamp like a maze of mirrors.

Available in three versions, wall mounted, ceiling mounted or suspension and two colours, cosy, domestic copper or cool, refined silver, it is perfect for personalising the most diverse settings with charm and originality.

Mysterio, suspension technical info

Description

Suspension lamp with direct light; in the white / copper version, the injection moulded polycarbonate lampshade is batch-dyed white and the interior undergoes a copper coloured "vacuum metallising" treatment, a technique that renders the material polished and reflective like metal. In the black / silver version, batch-dyed black and the interior undergoes a silver coloured "vacuum metallising" treatment and it is finished by hand through the sponge application of paint to age the surface. A hand-blown glass bubble with glossy finish screens the halogen light bulb. A brushed aluminium washer with the Diesel logo decorates the attachment of the cable to the lampshade. Canopy with galvanised metal bracket and batch-dyed ABS cover. Electrical cable and ceiling rose: black for the black version, white for the white version. Electrical decentralisation kit available, as well as multiple canopies for compositions up to 6 suspensions.

Materials: Metallized batch-dyed polycarbonate and blown glass

Colours: White-copper, Black-silver

Brightness

semi-diffused and direct down light

Mysterio suspension multiple composition

Description

A technical solution that couples function with design harmony: The multiple ceiling flange of Foscarini makes it possible to create compositions up to 9 suspension lamps to create cascades of light of high emotional impact, particularly suitable to enrich a stair case.

The standard multiple flange is designed to suit a large number of suspensions from both Foscarini and Diesel with Foscarini collections.

Materials: Lacquered metal

Colours: White

Multiple canopy

Weight

net kg: 9,00
gross kg: 10,70

Packing

vol. m³: 0,038
n.boxes: 1

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
