

Pipe, table design Diesel Creative Team

Luminous totems inspired by industrial piping - hence the name - dressed with casual-chic fabrics: this is a design idea that speaks the language of fashion, Diesel-style.

The irregular weave of its unrefined linen, in bleached or textured silk-screen printed versions, is transformed into luminous décor revolutionising the traditional lampshade.

Pipe is a family of floor and table lamps which can be used alone or in groups to illuminate, personalise and also define spaces with its large size and warm, whole surface diffused light.

technical info

Description

Table and floor lamp with diffused light. Outline of the PVC diffusers covered with pure natural linen fabric which undergoes different processes depending on the colour finish, the purposely-uneven weft and warp of the fabric is achieved artisan. For the white version, the fabric is stained and undergoes anti-fray treatment. For the black version, the linen undergoes a printing process with a rubber and a cylinder, which acts as the matrix of the irregular design on the fabric; this is followed by a treatment to set the rubber and stone washing to create the vintage effect. The frame is made of white powder-coated steel; in the diffuser, in the part underneath the fabric joints, a flag marks the model with the Diesel logo and the name of the successful living collection; switch and electrical cable both transparent.

Materials: Dyed natural linen, PVC and coated metal

Colours: White, black

Brightness

diffused light

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
