

Rock, floor design Diesel Creative Team

Rock is like volcanic stone which breaks apart to reveal a jewel within. Mysterious and rough outside, bright and iridescent inside, it is shot through with asymmetrical facets and reflects light rays like a crystal.

To the brown and white versions, with their pale and iridescent interior, a warm and bright gold finish has been added with sunnier shades warming the inside too.

The suspension version focuses light onto the space below, while the floor version features an adjustable light beam, making it perfect both as a reading lamp as well as to light a smaller area, bottom up or top down.

Rock, floor technical info

Description

Floor lamp with direct and adjustable light, hemispherical diffuser in mixed ABS and injection moulded polycarbonate. The outer cover is lacquered with matt "textured" paint, which not only colours but also makes the surface rough, while the paint on the interior is glossy and iridescent, white with greenish reflections for the brown and white version, and golden for the gold version. The conical joint supporting the diffuser is made of nylon with a fibreglass core and coated with liquid paint. Powder coated steel rod and hexagon-shaped base with the Diesel logo in relief in matt powder coated cast iron. Foot switch and cable both black for the brown and gold version, both white for the white version.

Materials: Moulded coated ABS + polycarbonate, lacquered metal and nylon

Colours: White, Brown, Gold

Rock, floor

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
