

Soft Power, table design Diesel Creative Team

A young and informal lamp, for everyday use and any setting whatsoever, just like your favourite pair of jeans: Soft power. It features a simple, compact and functional shape and its material is similar to washed denim, but softer and lighter, dressing the body and hat of the lamp to perfection. Its visible double seam, the weave of its printed fabric and the two colours available, blue and black, bring the world of jeans to mind at first glance. Soft, functional light is diffused across the room and concurrently projected onto the surface it stands on. It is available in two sizes: small and large, to blend in seamlessly with any interior décor and use context.

Soft Power, table technical info

Description

Table and floor lamp with diffused light. Outline of the PVC diffusers covered with pure cotton fabric; the purposely-uneven weft and warp of the fabric is achieved artisan. The cotton is digitally printed, and the colour is then set. This is followed by stonewashing to create the vintage effect; the fabric is tailored by hand using a sewing machine with visible seams. The central diffuser is made of opaline polycarbonate; the frame is made of white powder-coated steel. A washer with the Diesel log in satin finish aluminium decorates the transparent electrical cable outlet on the base.

Materials: Printed cotton, polycarbonate and coated metal

Colours: Light blue, Black

Brightness
diffused light

Soft Power, table

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
