

Tool, suspension design Diesel Creative Team

Tool is inspired by a reflex camera lens, whose shape it echoes, exalting the emotional charge of the phrase in the right light everything is amazing zoom 55-78”.

The Tool collection emanates technological appeal in its raw form, in both its shapes and materials.

The lamp has been designed with a single rubber body giving it the appearance of an object fresh off the assembly line and destined for a home environment, breaking with design and aesthetic conventions.

The hanging lamp has two versions, large and small. The smaller lamp is available in reading and table versions with a rough concrete base and supported by a painted black metallic stem. All models have a focused and direct light, like a true lighting “tool”, just as the name suggests.

Tool, suspension technical info

Description

Suspension lamp with direct light, matt black batch-dyed polyurethane diffuser, Diesel logo in horizontal relief. In the large version, an aluminium parabola-shaped element is inserted into the internal cone of the lamp. In the small version, the underside of the diffuser is marked, as in the marking of a Reflex lens, with the name of the collection "successful living from Diesel", the name of the model and the motto. Canopy with galvanised metal bracket and batch-dyed ABS cover. Electrical cable and ceiling rose both coloured; electric decentralisation kit available, as well as multiple canopies for compositions of up to 6-9 lamps.

Tool suspension multiple composition

Description

A technical solution that couples function with design harmony: The multiple ceiling flange of Foscarini makes it possible to create compositions up to 9 suspension lamps to create cascades of light of high emotional impact, particularly suitable to enrich a stair case.

The standard multiple flange is designed to suit a large number of suspensions from both Foscarini and Diesel with Foscarini collections.

Materials: Lacquered metal

Colours: White

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
