

Duii mini, wall design Diesel Creative Team

Is it a building game? Is it a comic character? A small domestic robot? Duii is original and fun right from its name which is inspired by one of Donald Duck's nephews.

Its hinged arm, held together with wing screws like blocks in a building game, supports a rounded body which in turn brings a multitude of memories and inspirations to mind: retro car headlights, a workman's hard hat but also the Mohican style head on the Diesel logo.

Created for playful, quirky spirits of all ages, the free cable and compact size of the 'mini' version makes it perfect for use as a table or wall lamp. It is available in two colour variants: bright yellow in the 'men at work' style and a warm shade of sober but simultaneously technological grey. Duii Mini's decorated box tells its story and completes the look of this perfect gift idea.

Duii mini, wall technical info

Description

Wall lamp with direct and orientable light, which can be positioned with the diffuser facing up or down. The head of the adjustable diffuser is made of powder-coated die cast aluminium. The moulded poly-prismatic glass is sand-blasted on the inside and polished on the outside, with a vintage finish like the headlight of an old car. The rod is made of powder-coated steel with a black galvanised butterfly screw. The moulded Zink alloy base is powder-coated and acts as a wall fastening plaque; it has a polished satin finish metal plate with the Diesel logo on the back; black switch and electrical cable, customised packaging box.

Materials: Pressed glass, aluminium, steel and laquered metal

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
